

OFFICIAL CHARTER & UNIQUE REGULATIONS

Issued by the Ravenholdt League for the Ravenholdt Fight Club

Adventurers, gamblers, blades of the Alliance and the Horde, listen closely. The mountains surrounding Ravenholdt Manor have always guarded deep secrets, but tonight, they guard your fate. Varnika, an expert Rogue of the organization, has been explicitly commissioned by Fahrads, the League Overseer, to harness your thirst for violence and gold. These are the laws of our clandestine arena.

SECTION 1: HISTORY & ORIGINS OF THE PROJECT

The League's Mandate

Ravenholdt Manor has always been a sanctuary for subtle minds, talented pickpockets, and the sharpest blades in Azeroth. However, maintaining such an espionage network and the absolute secrecy surrounding our peaks carries costs that simple assassination contracts can no longer cover alone.

This is why Varnika received an express order from Fährad to diversify the domain's income.

Her mission: exploit the greatest vices of mortals — pride, brutality, and greed — to replenish the League's treasury.

The Birth of the Ravenholdt Fight Club

To meet this mandate, the Ravenholdt Fight Club (RFC) was founded. Hidden from the prying eyes of the authorities, the club uses the secluded courtyard of the Manor as neutral ground. Here, faction hatreds fade away, replaced by steel and gold. Varnika serves as Chief Bookmaker: she maintains the grand ledger, validates bets, and collects the fair share due to the domain.

SECTION 2: LOCATION, ACCESS, AND CALENDAR

The Arena Sanctuary

Perched in the remote mountains of the Alterac Mountains/Hillsbrad Foothills, the Manor guarantees absolute discretion.

Access is granted exclusively via the fortified secret tunnel located in the northeast of the region. Follow the steep path along the cliffside to the main courtyard. A single misstep will lead you to the graveyard before you've even touched your purse.

Calendar and Secrecy Flexibility

The Ravenholdt Fight Club opens its gates at nightfall, following an immutable ritual:

- **Frequency and Time:**

Every Friday evening, from 8:00 PM to 9:00 PM maybe 9:30 PM (Server Time).

- **The Shadow Rule:**

Gamblers should assume the club is active every Sunday.

However, clandestinity imposes its own rules.

If suspicious troop movements or major complications force **Varnika** to suspend fights, no announcement will be made at 8:00 PM.

- **Whisper Verification:**

If the channel remains silent as the hour approaches, players have the right to whisper (/w) **Varnika** directly to verify if the event is held that Sunday. If she does not reply or confirms the cancellation, assume the guards are patrolling or the League is conducting priority operations. Ask no questions and return the following Sunday.

SECTION 3: CONCEPT AND TECHNICAL BETTING DISCIPLINE

Match Flow and Betting Phase

Each bout features two volunteer gladiators. Once the match is announced, opening **odds** are set at a perfect **1.00** to **1.00**.

Mandatory Betting Procedure & Internal Discipline

To ensure the fluidity of financial operations, gamblers must strictly follow the protocol dictated by the League:

1. **Trade Opening:** Players must wait patiently for **Varnika** to open a trade window herself. It is useless and forbidden to spam her with trade requests.
2. **Gold Deposit:** Gamblers deposit the exact amount they wish to bet into the open window.
3. **Targeted Whisper:** In parallel or immediately after, the player must whisper (/w) Varnika only the exact name of the contender they are backing.

Public Order Reminder:

*This procedure requires iron discipline from the community. It is strictly required to whisper **Varnika** only to provide your contender's name. The crowd is invited to form an orderly virtual queue to ensure rapid, clear, and friction-free operations.*

The RFC Manager Addon: Absolute Reliability

The entire tournament is managed by a custom-coded addon that automates financial logistics and secures every transaction:

- **Registration:** Varnika directly targets the fighters. The addon extracts their official data without manual entry.
- **Centralization of Flows:** The addon detects the gold deposited in the trade window, and Varnika links it to the contender chosen by whisper, calculating real-time odds.
- **Anti-Cheat Lock:** With a single click, the ledger is sealed. No further transactions are accepted, and the odds are frozen.
- **Postal Automation:** At the end of the match, the addon calculates winnings to the exact copper and instantly prepares redistribution mail.

SECTION 4: THE 8 SACRED RULES & CODE OF CONDUCT

- **RULE 1: IT IS FORBIDDEN TO TALK ABOUT THE FIGHT CLUB.**

Do not post in /1. Do not spam /2 in Ironforge or Orgrimmar. If a GM or the police ask what fifty people are doing in the Alterac mountains, you are picking Winterbite. What happens in Ravenholdt stays in Ravenholdt.

- **RULE 2: IT IS FORBIDDEN TO TALK ABOUT THE FIGHT CLUB.**

If your questing companion asks where the guild bank's gold went, throw a smoke bomb and flee. The first person to leak a screenshot or ruin the cover will serve as target practice for the Manor's assassins.

- **RULE 3: IF SOMEONE SAYS STOP, KNEELS, OR DIES, THE FIGHT ENDS.**

In a classic duel, it ends the moment one falls to 1 HP and kneels in submission. In Mak'gora mode, it ends when one of you releases their spirit and becomes a ghost. Our ledger validates the survivor, we clear the mess, and move to the next.

- **RULE 4: ONLY TWO PEOPLE PER FIGHT.**

Class pets are tolerated for Hunters/Warlocks. Otherwise, it is pure 1v1. If we catch your friend hiding in a bush to help or heal you, we slaughter you both and toss your bodies into the Manor's moat.

- **RULE 5: ONE FIGHT AT A TIME.**

The arena must be clear so gamblers can see where their money is going and analyze the odds without confusion.

- **RULE 6: NO EXTERNAL CLASS BUFFS.**

You come with your own techniques, potions, equipment, and guts. If we detect a Priest's Fortitude or Paladin's Blessing that isn't yours before the ledger locks, you look like a coward.

- **RULE 7: NO RACISM, NO SEXISM, NO HATE SPEECH (AND NO CRYBABIES).**

Trash-talking is allowed to heat up the room, but if you cross the line, you are permanently excluded. Same for those who whine because they lost their coin: here, you take your wins with a smile and accept your losses like a man.

- **RULE 8: IF IT IS YOUR FIRST NIGHT AT THE FIGHT CLUB, YOU MUST BET AND/OR FIGHT.**

If you found the secret path, you participate in the economy or the spectacle. Either you pull gold from your pockets to bet on our contenders, or you find someone of your caliber (level ± 1) and step into the arena to prove your worth. Everyone eats or bleeds.

House Code of Ethics

- **Bookmaker Neutrality:** Varnika is formally prohibited from participating in bets in any form. Her only role is regulation and collecting the League's taxes.
- **Gladiator Prohibition:** No fighter is allowed to bet gold on the match in which they are participating, avoiding any conflict of interest.
- **Zero Tolerance for Match-Fixing:** If the organization discovers a match was rigged, the sanction is immediate. The pool is confiscated, the cheaters and accomplices are permanently banned, and an assassination contract is placed on their heads by the League.
- **Consumables:** Ingenuity is part of our art. Authorized: healing/mana potions, alchemy elixirs/flasks applied by yourself, and all Engineering gadgets (goblin bombs, sapper charges, etc.). Conversely, using buffs from a third-party class or from a higher-level player of the same class is strictly **prohibited**.

SECTION 5: TAXATION, BETTING PARAMETERS, AND SPECIAL CASES

The House's Fiscal Restructuring

- **Classic Duel:** A 15% global tax is levied on the total betting pool. It is distributed as follows: 10% goes directly into the Guild's coffers to fund our spy networks; 5% is directly paid out to the victorious combatant as a performance bonus.
- **Mak'gora Duel (Death Duel):** A 33% global tax is levied and distributed as follows: a symbolic 5% is retained by the Guild to cover cleaning and logistics costs; 28% is fully paid out to the victorious combatant.

NB: *Cash Prizes may be considered for Mak'Gora duels in the future.*

The House's Fiscal Restructuring

- **Minimum Bet:** Set at 5 Silver coins.
- **Maximum Bet:** No cap.

Logistics and Combat Disputes

- **Level Balance:** The level gap between two gladiators is strictly limited to a maximum of plus or minus 1 level (± 1).
- **Forfeit by Flight (Out of Bounds):** Any coward leaving the courtyard area delimited by Varnika is disqualified. The combatant who remains in the center is declared the winner.
- **Anti-Play Prevention (Prolonged Invisibility):** If a fight drags on because a Rogue or Druid refuses to break stealth, the timer is stopped by the Bookmaker. The player who remains visible and ready to fight is automatically declared the winner.
- **Double KO Case and Mak'gora Assurance:** If both opponents collapse at the same time, the last one to expire or touch the ground is designated the winner. If this tragic tie occurs during a Mak'gora (death duel), the League deploys its exclusive "**Ravenholdt Death Assurance**" sent to the winner's new incarnation (reroll): a Reconstruction Starter Pack containing: 4 bags of 14 slots, a few healing/mana potions, and the full amount of financial winnings associated with their victorious character.

SECURITY OF SEIZURES (TECHNICAL NOTE)

The processing phase is entirely secured by Varnika. The targeting of gamblers and champions is performed via the game's integrated targeting interface. Gold transactions and whispers are manually validated by the bookmaker, preventing any spelling or case errors. Winnings are not distributed in the heat of the moment: the global shipment via pre-filled mail is validated by Varnika one by one

SECTION 6: DISCLAIMER

The Ravenholdt Fight Club is a clandestine circle for mature, aware adults. By crossing our mountains, you accept the risks inherent to our environment:

- **Bet with moderation:** Only bet the gold you can afford to lose. If you are considering pledging your epic mount to a goblin to recoup your losses, leave the Manor immediately.
- **Liability Waiver:** The League declines all responsibility regarding your financial losses (no refunds will be issued), physical injuries (our after-sales service is managed by the Undercity gravekeepers), or pickpocketing within the crowd. You are surrounded by thieves; watch your purse.

"Play, bet, fight, own it. Welcome to the Manor."

SECTION 7: OFFICIAL PARTNERS (AND SERVICE GUARANTEES)

To ensure the longevity of the Ravenholdt Fight Club, the League has formed agreements with local entities known for their discretion... or their total lack of morality.

- **Boursorama Bank (Azeroth Branch):** Thanks to our exclusive partnership, your wire transfers for bets benefit from the "Shadow Speed." Warning: any account credited with winnings must not be declared to the Stormwind tax office, under penalty of immediate termination of your life by our services.
- **Undercity Gravekeepers:** Our preferred partners for the management of "remains." If the fight ends in Mak'gora, they guarantee rapid excavation and, above all, ask no questions regarding the identity of the body. Preferential rate for club members: the first cubic meter of dirt is free.
- **"Goblin & Associates" Collection Service:** In case of unpaid gambling debts, these experts in "physical negotiation" are in charge of recovering your gold directly from your pockets, or by selling your organs on the Gadgetzan black market.
- **Royal Circle Apothecaries:** They provide us with concealment vials for your entries and exits from the tunnel. Warning: May cause side effects such as loss of eyebrows, a lingering scent of corpse, or talking to trees.
- **Stranglethorn Fishermen's Guild:** For all your "elimination by immersion" needs in the Manor's moat. They catch fish, they catch intruders, and they don't tell the difference.
- **"Hearthstone Express" Travel Agency:** A team specialized in the emergency transport of losers to the nearest graveyard. Comfort is Spartan, but speed is guaranteed by a projection spell directly into the void.

Note: *The League declines all responsibility in the event of billing errors, premature burial, or mysterious disappearance of assets after a transfer via these partners.*

SECTION 8: OOC (OUT-OF-CHARACTER) NOTE – COMMUNITY SPIRIT

For the record, the Ravenholdt Fight Club is a community event organized voluntarily on my own time, with the approval of **Nyu**, the server's **Grand Guru**. The sole and unique goal is to offer a moment of entertainment and conviviality to all players.

- **Spirit and Attitude:** I ask you to maintain a jovial attitude, a cordial tone, and mutual respect toward all other participants.
- **Respect for Rules:** It is imperative to respect the rules in force on the server. Any toxic or disruptive behavior will be sanctioned by immediate exclusion. **Warning:** *If the event were to cause repeated disturbances or harm the server's atmosphere, I would be forced to suspend or even permanently shut down the Fight Club's activities.*
- **Transparency:** Be indulgent if some errors slip into the organization. I have taken the greatest care to calibrate everything, but the devil is often in the details — details that I may have overlooked by mistake.
- **First Edition & Evolution:** Keep in mind that this is a first edition. The format is meant to evolve based on your feedback. I remain open to suggestions, provided they are formulated in a constructive and respectful manner.
- **Fair-Play Above All:** Never forget that this is just a game. Fair-play must take precedence over competition. Come for the spectacle, for the thrill, but above all to have a good time.

Thank you all for your understanding and support. May the best (and luckiest) win!

- Varnika, Chief Bookmaker of the Ravenholdt Fight Club
